

CraftSmart Fiber Protection Pedestals (FPP)

Application

The CraftSmart Fiber Protection Pedestals (FPP) secures the access point, and are optimized for use with the FieldSmart SCD Case for drop cable or splitter deployment. Equally suited to house any passive network equipment in the telecommunications, CATV and MSO markets.

Description

These round pedestals feature direct-bury bases with a removable self-locating and locking cover. They are available in two sizes - 9" x 22" and 10" x 24", and are available in light or dark green.

Features & Benefits

Integrity

- Constructed of durable, high strength blow-molded materials for maximum security and service life
- Round pedestal style maintains a consistent look with legacy pedestals in the field

Protection

- Self-locating cover ensures pedestals lock without special alignment
- Direct bury base provides a uniform and secure installation -- reducing lean or tilt
- Mounting stake included with each unit

Access

- 9" and 10" diameter round profiles provide maximum work space and bend radius provisions for all passive cables and connectors.
- Universal mounting bracket allows for installation standardization and flexibility
- SCD Case mounting bracket included with 1022 series
