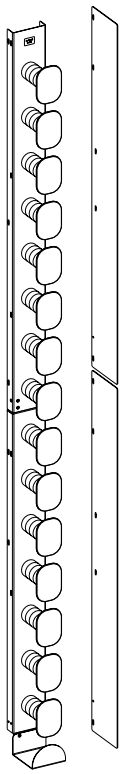
FieldSmart Fiber Crossover Distribution System (FxDS)

Interbay Cable Management Panel



Application

Interbay cable management is part of an overall fiber management system that includes frames and troughs. In addition to incremental slack take-up, the interbay provides a route path between frames.

Description

Interbay cable management panels are ordered to match the height of the frame. They are available in 7, 8 and 9 foot versions. End guards are available for the end of a line up to minimize potential damage to jumpers.

Features & Benefits

- 3" radius spools protect bend radius
- Optional end guards

Dimensions

Width	Height
5"	7'
5"	8'
5"	9'

Recommendations

Interbay cable management is suggested for all fiber applications. Clearfield's recommendation is to mount one interbay on each side of each frame and place an interbay with end guard on each end of the line up.

Configured Part Numbers

FMA-___ Z ___
1 2

1 Select frame width
E = Interbay without endguard
F = Interbay with endguard

2 Select frame height
A = 7 foot
C = 8 foot
D = 9 foot
