

Application

Provides a place to securely mount the cabinet and allow for cable slack storage.

Description

Formed from a high-density polyethylene foam, these vaults provide a solid construction and lightweight material alternative to traditional polymer concrete enclosures. Each enclosure is pre-cut to accommodate of the FieldSmart FSC Cabinets.

Features & Benefits

- All hardware is stainless steel, including captive bolts
- Base made of high-density polyethylene structural foam
- Split-lid style
- Rigid enclosure and cover are lightweight and easy to handle
- RUS accepted
- Pre-cut and drilled to match the FieldSmart cabinet
- 6" spacers available for larger storage and deeper burial

Material Information

Testing meets and exceeds:

- Thermal Shock—ASTM D-756
- Water Absorption—ASTM D-570 Section 6.1
- Weathering—ASTM D-822 Section 6.2 Procedure A
- Chemical Resistance Tests—ASTM D-543
- Flammability—Union Carbide Test Method WC-73-D-1
- 5,000 lb.

Clearfield products will accommodate any handhole. If there is a specific handhole you prefer from a different manufacturer, we will send you the necessary templates.
